Altium continues to expands its reseller network in Europe Altium appoints 4TEST Instrument AS as its reseller in Norway

Oslo, Norway – January 18, 2010 – Altium has appointed 4TEST Instrument AS as its reseller in Norway. 4TEST will support Altium by providing pre- and post-sales support for its next generation electronic design solutions, [Altium Designer](#), the [NanoBoard](#) family of reconfigurable development boards and its [TASKING](#) embedded software development tool.

It will also provide local engineers electronic design services, including backplanes layout design, boards and layout design, schematics, and component and library management.

"The Norwegian electronics design market continues to grow, despite the broader economic challenges we're still facing," said Jonny Langmyren, CEO of 4TEST Instrument AS. "We see Altium Designer as being at the centre of that growth, providing Norwegian engineers with a next generation design tool that can take their projects from concept to deployment in a single design environment."

Altium has appointed more than 14 [new resellers](#) in the last 12 months. In particular, resellers have been added in Scandinavia, Israel, the Benelux region, Romania and in the Americas.

"The momentum continues to build for Altium and the alternatives we bring to the market," said Martin Harris, Vice President EMEA, Altium. "It's very satisfying to be able

to increase our commitment in Norway, even as we continue to grow our operations elsewhere in Europe, with a new office in Russia and a new partner in [Romania](#).”

About Altium

Altium Limited (ASX:ALU) provides next generation electronics design software. Altium’s unified electronics design environment links all aspects of electronics product design into one process, in a single application. This helps electronics designers harness the latest devices and technologies, manage their projects across broad design ‘ecosystems’, and create connected, intelligent designs. For more information, visit www.altium.com.

About 4TEST Instrument AS

4TEST is an authorized seller of electronics engineering products and services, specialising in the military, telecom, medical, education and industrial sectors. For more information, visit www.4test.no
